

Best Practice 1

1. Title of the Practice

Widening the Learning Spectrum

2. Objective of the Practice

To provide wide range of optional courses to the students at institute and departmental level in the area of interest.

3. The Context

The institute has put in efforts to identify and design courses in the curriculum which caters to the expertise required in the field of recent developments.

4. The Practice

Institute was conferred autonomy status in November 2021. For its effective implementation, bridge courses for second year and Institute level audit courses, value added courses for third and final year were offered. These courses were designed to make the students enhance their multidisciplinary skills and prepare to meet industry requirements.

5. Evidence of Success

Placement increased by 60% with an average package of 4.15 and highest of 7.5 lakhs. 35+ students got admitted to foreign universities for higher studies. Four teams were selected for SIH Finale and Two teams were winners.

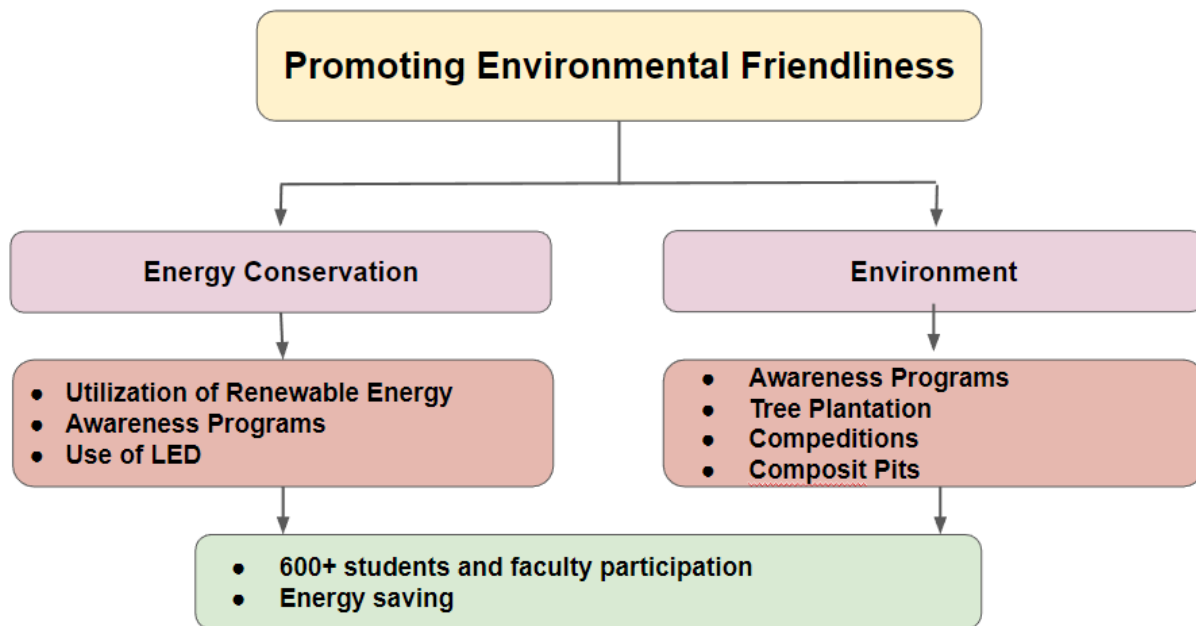

6. Problems Encountered and Resources Required

Institute has to strive hard to provide the required expertise and state of art facilities to the students inline with the recent development and industry requirements.

7. Notes

Students were prepared to have a mindset to choose and learn courses out of their discipline. Industry interactions were enhanced to develop a curriculum as per the needs.

Best Practice 2

1. Title of the Practice

Promoting Environmental Friendliness

2. Objective of the Practice

The environmental friendly practices promote consciousness towards adopting and promoting practices that can redefine environmental culture.

3. The Context

To impart knowledge, create awareness and develop an attitude of concern and contribute strongly to sustainable development by training and expanding young minds in researching solutions to the environmental challenges.

4. The Practice

Institute executed various programmes/activities for conservation of energy and environment. MoU with agencies like Biocrux to reduce or reuse plastic. Partnerships between the institution and NGOs like Rotary club in order to build capacity to provide suitable solutions to problems in society .

5. Evidence of Success

600+ students enthusiastically participated in the 'Plant for planet' and 'Best to Waste' program. Around 800 LED lights are presently used in campus.

6. Problems Encountered and Resources Required

Planning of activities which are not a part of curriculum in the pack academic planner is the major challenge. Faculty needs to put in extra effort to impart these values.

7. Notes

Students were made to develop the sapling with the seeds provided at their homes so that the affection towards nature is more effectively inculcated into them.
